Statement of Changes in Net Assets (Unaudited)

# **Notes to the Unaudited Semi-Annual Financial Statements**

For the period ended June 30, 2019

## 1. Organization

#### Assumption Mutual Life Insurance Company

Assumption Mutual Life Insurance Company "Assumption Life" is the issuer of the variable deferred annuity policies in respect of which the Assumption Life Investment Funds, "the Funds", were created. Assumption Life is an insurance company incorporated as a mutual life insurance company on March 30, 1968, under a private law of the Province of New Brunswick's Legislative Assembly. Assumption Life is currently doing business in all Canadian provinces. Its head office is located at 770 Main Street, Moncton, New Brunswick, E1C 8L1.

## 2. Funds

On November 19, 2018, the following segregated funds were established:

Assumption SmartSeries Income Fund Assumption SmartSeries 2020 Fund Assumption SmartSeries 2025 Fund Assumption SmartSeries 2030 Fund Assumption SmartSeries 2035 Fund Assumption SmartSeries 2040 Fund Assumption SmartSeries 2045 Fund Assumption SmartSeries 2050 Fund Assumption SmartSeries 2055 Fund

Each Fund is a segregated Fund established by Assumption Life. The Funds follow the guidelines on individual variable insurance contracts relating to segregated funds established by the Canadian Life and Health Insurance Association Inc. The Assumption Life Funds are managed by Assumption Life; the Louisbourg Funds are managed by Louisbourg Investments Inc.; the Fidelity Funds are managed by Fidelity Investments Canada Limited and the CI Funds are managed by CI Investments Inc.

The following are the segregated funds established by Assumption Life:

#### Assumption Life Funds

Assumption Growth Portfolio Assumption Balanced Growth Portfolio Assumption Balanced Portfolio Assumption Conservative Portfolio Assumption SmartSeries Income Fund Assumption SmartSeries 2020 Fund Assumption SmartSeries 2030 Fund Assumption SmartSeries 2030 Fund Assumption SmartSeries 2040 Fund Assumption SmartSeries 2045 Fund Assumption SmartSeries 2050 Fund Assumption SmartSeries 2055 Fund

#### Louisbourg Funds

Assumption/Louisbourg Balanced Fund Assumption/Louisbourg U.S. Equity Fund Assumption/Louisbourg Canadian Dividend Fund Assumption/Louisbourg Fixed Income Fund Assumption/Louisbourg Money Market Fund Assumption/Louisbourg Canadian Small Capitalization Equity Fund Assumption/Louisbourg Momentum Fund Assumption/Louisbourg Preferred Share Fund

## Fidelity Funds (continued)

#### CI Funds

Assumption/CI Signature Canadian Bond Fund Assumption/CI Harbour Growth & Income Fund Assumption/CI Signature High Income Fund Assumption/CI Cambridge Canadian Asset Allocation Fund Assumption/CI Cambridge Canadian Asset Allocation Fund Assumption/CI Cambridge Canadian Dividend Fund Assumption/CI Cambridge Canadian Dividend Fund Assumption/CI Signature Global Resource Corporate Class Fund Assumption/CI Signature Global Dividend Fund

#### Fidelity Funds

Assumption/Fidelity True North<sup>®</sup> Fund

The Series A of the Funds is only available for individual contracts issued prior to January 1, 2002, and for group plans. The Series B and the Series C are available for contracts issued since 2002.

Fund Facts are available on the Company's Web site, www.assumption.ca. The Fund Facts give an idea of what each fund invests in, how it has performed, how risky it is and what fees may apply.

The financial year-end for the Funds is December 31. The Statements of Financial Position are presented as at June 30, 2019 and December 31, 2018. The Statements of Comprehensive Income, Statements of Changes in Net Assets and Statements of Cash Flows are presented for the periods ended June 30, 2019 and 2018. Where a Fund was established during either period, the information for that Fund is provided from the inception date.

## 3 . Summary Of Significant Accounting Policies

The financial statements are established in accordance with International Financial Reporting Standards (IFRS) as published by the International Accounting Standards Board (IASB). The Funds adopted this basis of accounting as required by the Canadian securities legislation and the Canadian Accounting Standards Board. Significant accounting policies used in preparing the semi-annual financial statements are consistent with those used in preparing the annual financial statements. The semi-annual financial statements should be read in conjunction with the Funds' December 31, 2018 annual audited financial statements.

The establishment of the financial statements in accordance with these principles requires estimates and assumptions made by management that affect the amounts of assets, liabilities, income and expenses presented in the financial statements and the supplementary notes. Actual results could differ from these estimates and assumptions.

The significant accounting standards followed by the Funds are as follows:

# Notes to the Unaudited Semi-Annual Financial Statements

For the period ended June 30, 2019

#### IFRS 9, "Financial Instruments" Transition

Effective January 1, 2018, the Funds adopted IFRS 9. The standard has been retrospectively applied. IFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting.

#### Classification and Measurement

This new standard introduces a model for classification and measurement of financial assets and liabilities including those carried at amortized cost; fair value, with changes in fair value recognized in fair value through profit or loss ("FVTPL"); or fair value through other comprehensive income ("FVOCI") based on the entity's business model for managing financial assets and the contractual cash flow characteristics of these financial assets. Assessment and decision on the business model approach used is an accounting judgement.

Upon transition to IFRS 9, the Funds' financial assets and financial liabilities previously designated as FVTPL under IAS 39, "Financial Instruments Recognition and Measurement", generally based on the fair value option, are now classified as FVTPL and there were no changes in the measurement attributes. The Funds' financial assets and liabilities or derivatives previously classified as held for trading under IAS 39 are also now classified as FVTPL. All assets previously classified as loans and receivables under IAS 39 are now recorded at amortized cost under IFRS 9. The classification and measurement of liabilities under the new standard remains generally unchanged. The adoption of IFRS 9 has been applied retrospectively and did not result in any changes in the prior period.

#### Impairment

IFRS 9 requires that an entity recognize a loss allowance for expected credit losses on financial assets which are measured at amortized cost or FVOCI. Financial assets held by the Fund which are measured at FVTPL are not subject to the new impairment requirements.

With respect to loans and receivables, the Funds consider both historical analysis and forward looking information in determining any expected credit loss. As at the financial statement date, all loans and receivables are due to be settled within the short term. The Funds consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligation in the near term. Given the limited exposure of the Funds to credit risk, no loss allowance has been recognized as any such impairment does not have a significant impact on the financial statements.

#### Hedging

The Funds have not applied hedge accounting under IAS 39 and do not apply hedge accounting under IFRS 9.

#### Financial Instruments

Financial instruments include financial assets and financial liabilities, such as investments, cash, and other receivables and payables. The Funds classify and measure financial instruments in accordance with IFRS 9. Upon initial recognition, financial instruments are classified as FVTPL. All financial assets and liabilities are recognized in the Statements of Financial Position when a Fund becomes a party to the contractual requirements of the instrument. Financial instruments are derecognized when the right to receive cash flows from the instrument has expired or a Fund has transferred substantially all risks and rewards of ownership. As such, investment purchase and sale transactions are recorded as of the trade date.

The Funds' financial assets and financial liabilities, other than receivables and payables, are subsequently measured at FVTPL with changes in fair value recognized in the Statements of Comprehensive Income. Other receivables and payables are subsequently measured at amortized cost. Investments in underlying funds are valued at the closing net asset value of the units owned as established by the manager of the underlying funds at the valuation date. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate. The Funds accounting policies for measuring fair value of its investments are identical to those used in measuring its net asset value (NAV) for transactions with contractholders.

#### Investment transactions and income

Investment transactions are accounted for on the trade date, which is the date the order to buy or sell is executed.

Interest income is recorded on the accrual basis. Distributions from underlying funds are recorded when declared by the underlying funds.

Realized gains (losses) on sale of portfolio investments are calculated using the original cost of related investments. Unrealized gains (losses) on portfolio investments are calculated as the in-year change in the excess (deficiency) of fair value over original cost of portfolio investments held.

#### Classification, unit valuation and valuation date

The Funds units outstanding are classified as financial liabilities under IFRS, IAS 32, as the contractholders have the right to require the issuer to redeem them at their net asset value. Net asset value per unit is determined each day at the close of trading of the Toronto Stock Exchange and remains in effect until the next close of trading, at which time the determination of the net asset value per unit is made. The unit valuation for each Fund is made by dividing the total value of the Fund's net assets by the total number of units outstanding in the Fund.

## 4 . Financial Instrument Risks

#### Risk management

The Funds invest solely in units of underlying funds and are exposed to a variety of financial instrument risks: credit risk, liquidity risk and market risk (including interest rate risk, currency risk and other price risk). The level of risk to which each Fund is exposed depends on the investment objective and the type of investments held by the underlying fund.

The value of investments within an underlying fund portfolio can fluctuate daily as a result of changes in prevailing interest rates, economic conditions, market conditions and company-specific news related to investments held by the underlying fund. The underlying fund manager manages the potential effects of these financial risks on the Fund's performance by employing and overseeing professional and experienced portfolio advisors that regularly monitor the fund's positions, market events and diversify investment portfolios within the constraints of the investment quidelines.

The Funds do not manage their underlying funds and therefore the quantitative and qualitative risk disclosures have not been disclosed. For further information on the financial instrument risks of the underlying funds and the sensitivity to price changes, please refer to the financial statements of the underlying funds. You will also find risk disclosures in the Funds' Information folder on the Company's Web site, www.assumption.ca.

#### Credit risk

Credit risk is the risk that a security issuer or counterparty to a financial instrument will fail to meet its financial obligations. All fixed income securities are subject to credit risk. The carrying amount of debt instruments represents the credit risk exposure of each underlying Fund.

# Notes to the Unaudited Semi-Annual Financial Statements

For the period ended June 30, 2019

#### Liquidity risk

Liquidity risk is defined as the risk that a fund may not be able to settle or meet its obligations on time or at a reasonable price. The underlying funds are exposed to liquidity risk through daily cash redemptions of units. The majority of the underlying funds' investments are traded on an active market and can therefore be readily realized.

#### Interest rate risk

Interest rate risk arises when an underlying fund invests in interest-bearing financial instruments such as bonds. The underlying fund is exposed to the risk that the value of such financial instruments will fluctuate because of changes in the prevailing levels of market interest rates. In general, as interest rates rise, the price of a fixed rate bond falls, and vice versa.

#### Currency risk

Currency risk is the risk that financial instruments that are denominated or exchanged in a currency other than the Canadian dollar, which is the Funds' and the underlying funds' reporting currency, will fluctuate due to changes in exchange rates. However, the underlying funds are exposed to currency risk to the extent that their investments are denominated or traded in a foreign currency.

#### Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk). The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends. All securities present a risk of loss of capital.

#### 5. Capital Management

The Funds consider their net assets to be their respective capital. The capital of the Fund is managed in accordance with the Fund's investment objectives. The relevant capital movements are disclosed in the Statement of Changes in Net Assets of each Fund. The Funds have no restrictions or specific capital requirements.

## 6 . Fair Value Of Financial Instruments

The Funds are required to classify financial instruments measured at fair value using a fair value hierarchy. The fair value hierarchy prioritizes the inputs to fair value measurement. The three levels of the fair value hierarchy are:

Level 1: Quoted prices are available in active markets for identical investments as of the reporting date. Quoted prices for these investments are not adjusted, even in situations where a large position and a sale could reasonably impact the quoted price.

Level 2: Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs are unobservable. The inputs into the determination of fair value require significant judgment or estimation.

The Funds invest only in other investment funds. For further information on the fair value hierarchy of the underlying funds, please refer to the financial statements of the underlying funds.

## 7 . Other Administrative Expenses

Included in "Other Administrative Expenses" are all fees (except for the management fees payable by the Funds), and all other expenses incurred during the ordinary course of business in relation to the establishment, management, and operation of the Funds. They include, among others, legal fees, audit fees, safekeeping fees, administrative fees, bank charges, registration fees with regulators, the production and distribution of financial data, taxes and any other expenses incurred for the operation of the Funds.

#### 8 . Management Fees

Management fees means the fees charged to administer the Funds. Management fees also include management fees of the underlying funds, so there is no duplication of management fees. Insurance fees, for the cost of the guarantee at maturity and guarantee upon death, are included in the management fees. Management fees, expressed as a percentage, are deducted daily from the assets of each Fund before calculating its unit value.

The management of the Assumption Life Funds is carried out under the overall authority of the board of directors of Assumption Life, which subcontracts the management of the Funds to Louisbourg Investments Inc., whose shares are owned by Assumption Life (70%) and 647439 NB Inc. (30%). The company 647439 NB Inc. is 100% owned by some managers of Louisbourg Investments Inc. Louisbourg Investments Inc. is responsible for the investment analysis, recommendations, decisions, and the purchase and sale of the securities in respect to the Funds.

The Louisbourg Funds, the Fidelity Funds and the CI Funds are managed, on a day-to-day basis, by Louisbourg Investments Inc., Fidelity Investments Canada Limited and CI Investments Inc. As managers, they are responsible for the investment analysis, recommendations, decisions, and the purchase and sale of securities for the Funds.

## 9 . Increase (Decrease) In Net Assets Resulting From Operations Per Unit Of Each Series

The increase (decrease) in net assets resulting from operations per unit of each series is calculated by dividing the increase (decrease) in net assets resulting from operations by the weighted average number of units outstanding during the period.

## 10 . Income Taxes

The Funds are deemed to be inter-vivos trusts under the provisions of the Income Tax Act (Canada) and are deemed to have allocated their income to the contractholders. Each Fund's net capital gains (losses) are deemed to be those of the contractholders. Accordingly, the Funds are not subject to income tax on their net income, including net realized capital gains for the year.

### 11 . Investments Of Underlying Funds

The financial statements of the underlying funds are available upon request by contacting Assumption Life.

# WHY CHOOSE Assumption Life?

Assumption Life offers you solutions that are flexible, secure, and affordable, as well as:

- Sound advice
- Innovative products
- Diversified selection of investments
- Skilled, professional managers
- Competitive performance
- Reduced administration fees

Through our subsidiary Louisbourg Investments and by means of our strategic alliance with Fidelity Investments and CI Investments, we are equipped to help you build a prosperous future.

We have been meeting the needs of our clients successfully for over 100 years. We constantly strive to maintain and cultivate this special relationship by offering you quality financial products and services.
